Township, Lahore, Punjab, Pakistan

SUMMARY

Full-Stack Web Developer with hands-on experience building real-world web apps using React.js, Next.js, Node.js, Express, Supabase/PostgreSQL, MongoDB, and Socket.io. Experienced in authentication, REST APIs, dashboards, role-based access, ecommerce, POS/ERP systems, and real-time communication features.

PROJECTS

Real-Time Talk App — React.js, Node.js, Express.js, Socket.io, Supabase

- Built a real-time communication app with live messaging using Socket.io.
- Developed authentication, user search, conversations, and message handling features.
- Integrated Supabase/PostgreSQL for database storage and user-related data.

Solo Safe —Next.js, Supabase, Authentication

- Building a solo product independently from planning to implementation.
- Implemented authentication, protected routes, dashboard screens, and database-connected features.
- Focused on clean UI, practical user flows, and production-style feature development.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, Authentication, JWT

Database: PostgreSQL, Supabase, MongoDB

Real-Time: Socket.io, real-time messaging, live updates

Tools: Git, GitHub, Postman, VS Code, Cursor

Concepts: CRUD, API Integration, RBAC, OOP, Responsive Design, SaaS Dashboards

EDUCATION

Bachelor of Science in Software Engineering.

EXPERIENCE

Web Developer Intern at Airoxlab

On-site July 2025 – Sep 2025

- Worked with React.js, Next.js, APIs, dashboards, and business software features.
- Improved debugging, Git workflow, API integration, and production development skills.

Junior Web Developer at Airoxlab

Full time Oct 2025 – Present

- Built production features for BizPOS and ERP systems using Next.js.
- Worked on frontend modules, dashboards, bug fixes, and client-focused business workflows.
- Collaborated with backend and design team to deliver real software for business clients
